

Art and Design at Letchmore Infants' and Nursery School

Subject Intent Statement

At Letchmore Infants' and Nursery we believe our art and design education should engage, inspire and challenge pupils, equipping them with the knowledge and skills to experiment, invent and create their own works of art, craft and design.

We aim to ensure that all pupils receive high quality teaching through a varied and well covered curriculum. As pupils progress, they should be able to think more critically and develop their own understanding of art and design, giving them the opportunities to appreciate art around us and the wider environment.

Our vision is that pupils should know how art and design contributes to the culture and creativity of our world. We always encourage and support them to achieve their best in art and craft and celebrate these achievements through discussion and display in our school.

Implementation

Teaching will be based upon six skill areas and within these areas an age appropriate focus will be placed on colour, pattern, texture, line, tone, shape and form. The six skill areas in art are:

- Drawing
- Painting
- Printmaking
- Texture
- 3D form
- Pattern

The skill areas will be taught individually and through a multi-skilled approach using appropriate guidance. Within these skill areas work from artists will be used when and where appropriate to illustrate different techniques and approaches.

It is intended that all classes should work within these six areas in order to undertake a balanced programme of art and design, which clearly builds on previous experience and takes account of earlier achievement.

Each year group incorporates these within their planning and take a cross-curricular approach. Resources are available for children to further develop these skills within the enhanced curriculum / CIL.

Provision for vulnerable groups and children with SEND: Class teachers will make adaptations to the curriculum appropriate to the needs of individual children. Learning activities and outcomes will be differentiated to ensure **all** pupils are able to participate fully and make progress. Resources will be adapted as appropriate to ensure **all** pupils can access **all** aspects of learning. Adaptations may include: use of visual and concrete resources, use of a whiteboard for recording, pre-teaching key vocabulary and concepts, assessment of understanding and progress through discussion and role-play rather than through what a child has recorded. This list is not exhaustive and class teachers will work in collaboration with the child, parents / carers, SENCo, LSAs and external professionals to understand and respond to the children's individual needs.
