

School Council

- At Letchmore Infant's and Nursery School we value the importance of our children having a say in how and what they learn. The School council is made up of children across Key Stage 1. In their role, they are expected to gather the thoughts and ideas of the children in the classes they are representing about all aspects of learning in school. The School Council then take on the responsibility of making some of the changes happen.

Miss Honey our school dog

Last year the children asked the school council if they could arrange for the school to have a dog. We have a guinea pig and some fish but the children would like to have more animals in school. We surveyed the children and held meetings to plan and think about how we could look the children and a dog at school. We met with our teachers, co-headteachers, and governors and we were successful in our task.

In September Miss Honey joined our school and now visits us on a Tuesday to support many of our children.
